Agenda: On October 20, 1997, the committee will discuss issues relating to a premarket approval application for a surface modified intraocular lens (IOL) in addition to a review of an update of the FDA "grid" of historical IOL data. A product development protocol (PDP) based on the draft guidance document for monofocal IOL's will be discussed. On October 21, 1997, the committee will discuss proposed extensions to the draft guidance document for refractive surgical lasers, specifically, clinical criteria for the determination of safety and effectiveness for photorefractive keratectomy (PRK) and laser in-situ keratomileusis (LASIK) for myopia, astigmatism, hyperopia, and other refractive indications. A PDP for excimer lasers for PRK will also be discussed. Single copies of the above-mentioned guidance documents are available to the public by contacting the Division of Small Manufacturers Assistance, 1350 Piccard Dr., Rockville, MD 20851, 1-800-638-2041, or from the Internet: <http://www.fda.gov/cdrh/draftgui.html>.

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person by October 10, 1997. Oral presentations from the public will be scheduled between approximately 8:30 a.m. and 9:30 a.m. on October 20 and 21, 1997. Time allotted for each presentation may be limited. Those desiring to make formal oral presentations should notify the contact person before October 10, 1997, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: September 16, 1997.

Michael A. Friedman,

Deputy Commissioner for Operations.
